

Digital Dynasty Retrospective

What went well?

- The project timeline went well, some of the assigned tasks was able finish on time. All group members were able to participate and was given a specific task. We did the project on the same place at the same time and that makes our work as a team efficient and convenient.

What could be improved?

- GUI, we as a team need to improve the design of our attendify system for better readability and accessibility. Our blockage run out of time because we had a lot of workloads in other subjects and in our OJT.

What needs to be done?

- Functioning buttons, improved UI/UX design, and application of coding guidelines.
